SUPERINTENDENT OF SCHOOLS

Harry A. Foster

*To the Superintending School Committee and Citizens of
the Town of Livermore:*

I herewith submit my first annual report of the schools of Livermore.

Attached to this report is an itemized account of income and expenditures and the application of the same to the maintenance of your school program.

It is impossible for me to report the progress of the schools during the year but believe most creditable work has been done. On entering the service, Dec. 1, 1931, I found the school work going very smoothly, the teachers showing a capacity for and interest in the work and the pupils manifesting a high grade of deportment and industry. As a whole, I consider the teaching force very efficient and the schools measuring up well to standard.

There has been a lack of textbooks and supplies during the year. At least one grade in each school is at present

marking time because of insufficient material to go ahead. Sanders School is without a set of maps and Brettuns School is using a set of pre-war vintage. I do not believe it is economy to tolerate these conditions.

The cost of education per pupil in Common Schools during the year was \$68.82. Believe this amount can be reduced to \$65.00 for the coming year.

Considerable more money will be needed to care for High School tuition. During the past year the town paid tuition for 58 students. Ten students will graduate in June but there are 22 possible candidates for High School entrance at the opening of school in September.

Respectively submitted,

HARRY A. FOSTER, *Superintendent.*
